Fogolàr Civic is a cultural civist movement promoted in Friuli Venezia Giulia (Northeastern Italy) by prof. Alberto Travain since 1989. Quintieri are territorial sections of Fogolàr Civic and its local watch, guard and lab of civic culture and dignity. These modern sections are inspired by the historical five districts of the Friulian and Udinese civic defence at the time of the medieval Aquileian patriarch Bertram, an old civil myth of the area like a local King Arthur.
